

## Assignment on Tableau

1. Do the following operations on vehicle registration dataset using tableau

Sheet 1:

Top 5 states in the year 2001 plotted in descending order. Graph should also contain the count of each state. The size of the graph should vary with count.

Sheet 2:

Top 5 states in the year 2011 plotted in descending order. Graph should contain the count of each state and detail of year 2007 also.

Sheet 3:

Geographical plot of different states labelled with ranks with respect to year 2011.

Sheet4:

Least 5 states of 2007 plotted in ascending order. Different states should have different color.

Sheet 5:

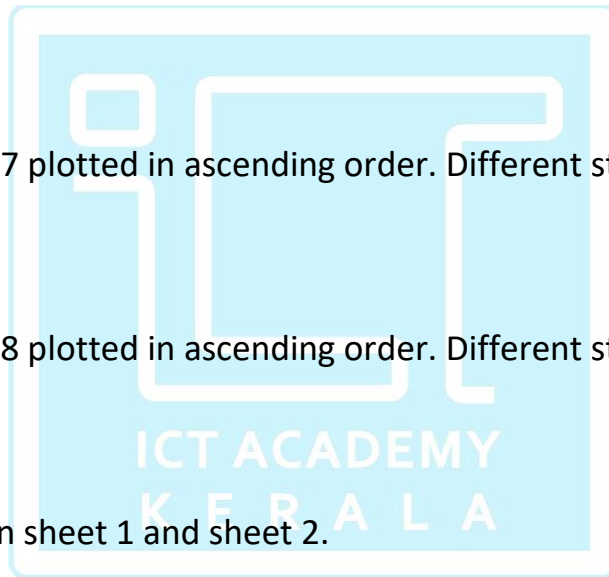

Least 5 states of 2008 plotted in ascending order. Different states should have different color.

Dashboard 1:

Comparison between sheet 1 and sheet 2.

Dashboard 2:

Comparison between sheet 4 and sheet 5.

2. Do the following operation on air passengers dataset using tableau

Use the dataset to predict the number of passengers in the year 2019.

Please note the following:

1. Do not change the name of any sheets or dashboards. Leave it as default names.
2. Take a screenshot of all your graphs and these images needs to be submitted in Paatshala.
3. All the 8 images should be uploaded as one single .zip file.
